Sir:

Prior to the consideration of this application, please amend the application as follows

IN THE CLAIMS

Please add the following claims:

37. An interactive system for auctioning insurance comprising a system server programmed to generate screens remotely accessible from a computer through a computer network, the screens comprising:

- a) a bid request submission screen including a first section through which a party seeking insurance may enter into the system server contract terms of a request for insurance and a second section through which the party seeking insurance may
